EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

FREDERICK TRANSPORT LIMITED, MC-116519
FREDERICK TRANSPORT (U.S.) INC., MC-162023

Decided: October 3, 1986

Frederick Transport Limited (Frederick Ltd.), MC-116519 and Frederick Transport (U.S.) Inc., (Frederick U.S.), MC-162023 petition for waiver of Sections 1057.22(a), portions of 1057.22(c)(2) and (4) and Section 1057.22(c)(3) of the Lease and Interchange of Vehicles regulations (49 CFR Part 1057) when exchanging equipment between themselves.

WE FIND:

Petitioners are wholly owned subsidiaries of Frederick Group, Inc., a Canadian non-carrier. Common ownership and control was last approved by the Commission in Docket MC-FC-82398. Frederick Ltd. conducts extensive domestic operations within Canada as well as a Commission authorized service between points in Canada and all points in the United States. Frederick U.S. operates between points in the United States under authority granted by this Commission.

Both petitioners hold common and contract carriers authority within the United States. Both operations are primarily engaged in long distance transportation of truck load shipments. A substantial percentage of the service of Frederick Ltd. and 100% of that of Frederick U.S. is performed by owner-operators under long term leases. All leasing within the United States is in accord with the Commissions regulations.

The two carriers jointly own approximately 1300 trailers of various types; vans, flat beds, dropdeck, dump body and tank. Control of these vehicles as well as the tractors assigned for each specific movement is maintained by a highly sophisticated coordinated computer dispatch system.

The need of meeting the U.S. Customs and Immigration laws applicable to Canadian drivers of Canadian owned vehicles in the United States as well as improving equipment utilization, increasing total fleet efficiency and improving service to the public, results in an extensive use of equipment exchanges between the petitioners. In conducting these equipment exchanges the petitioners have found the vehicle identification and equipment receipt requirements of the leasing regulations to be burdensome and costly. Compliance with, what petitioners view as unnecessary provisions of those regulations (since joint ownership exists), results in delayed response to the needs of shippers and maintenance of rate levels higher than necessary.

The petitioners also identify as burdensome Section 1057.22(c)(3) which requires that copies of lease agreements be carried in the equipment while in possession of the lessee. Since petitioners indicate that master leases are utilized in conducting the equipment exchanges, the portion of 1057.22(c)(4), which also requires the presence of a copy of any master lease on the involved equipment, must also be considered.

It has been the past practice of the Commission to grant waiver of the vehicle identification and equipment receipt provisions of the leasing regulations where common ownership and control exists. However, the requirement that copies of leases be carried in the involved equipment has been deemed to be essential and in the public interest. This provision makes readily available, to enforcement and regulatory officers, relationships that may be necessary in determining legality of the operation being conducted as well as responsibilities for third party liability. For these reasons, this provision has not been subject to waiver.

We further find that a partial granting of the petition, as discussed above, is consistent with past Commission practice and in keeping with its obligation under the National Transportation Policy at 49 USC 10101.

IT IS ORDERED:

1. The petition of Frederick Transport Limited, MC-116519 and Frederick Transport (U.S.) Inc., MC-162023 is granted as it relates to the vehicle identification [Section 1057.22(a)] and the equipment receipt [Section 1057.22(c)(2) and (4)] requirements of the Lease and Interchange of Vehicle regulations (49 CFR Part 1057), but denied as to Section 1057.22(c)(3) and (4), for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

(SEAL)

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

EUGENE TRIPP TRUCKING, INC., MC-143328, TIGER TRANSPORTATION, INC., MC-140186, STAN WATKINS AND WARREN C. SHEPARD d/b/a WATKINS AND SHEPARD TRUCKING-MC-176957

Decided: October 3, 1986

Eugene Tripp Trucking, Inc., (Tripp) MC-143328, Tiger Transportation, Inc., (Tiger) MC-140186 and Stan Watkins and Warren C. Shepard d/b/a Watkins and Shepard Trucking (Watkins and Shepard) MC-176957 petition for waiver of Section 1057.22(a) and those portions of 1057.22(c)(2) and (4) relating to the issuance of equipment receipts of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

WE FIND:

Petitioners are regulated carriers of property performing for-hire transportation in interstate and foreign commerce within the United States under authorities granted by this Commission.

Common control of Tripp and Tiger was approved under Commission order MC-F-14425, December 1980. Exemption from the statutory requirements of 49 USC 11343 is currently being sought under Docket No. MC-F-17749 which, if granted, will authorize common ownership and control over Tripp, Tiger and Watkins and Shepard.

Dispatch records and operational logs of the three petitioners will be maintained in a manner that will enable the identification of vehicle ownership, control and service assignment at all times. Petitioners will jointly administer a safety program covering the total operation.

Petitioners wish to optimize utilization of the three carrier fleets through prudent exchanges between themselves. Granting the waiver requested will save time and energy as well as improve service to customers and eliminate unnecessary paperwork.

We further find that the granting of the petition is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy at 49 U.S.C. 10101.

IT IS ORDERED:

1. The petition of Eugene Tripp Trucking, Inc., MC-143328, Tiger Transportation, Inc., MC-140186, and Stan Watkins and Warren C. Shephard d/b/a Watkins and Shepard, MC-176957 for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gallard, William J. Love, and Heber P. Hardy.

(SEAL)

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

TTWS, INC.-MC-180793
TRAVENOL LABORATORIES, INC.

Decided: October 3, 1986

TTWS, Inc., MC-180793 and Travenol Laboratories, Inc., (TRAVENOL) a non-carrier parent of TTWS, Inc., petition for waiver of Sections 1057.22(a) and those portions of 1057.22(c)(2) and (4) which require the issuance of equipment receipts of the Lease and Interchange of Vehicles Regulations (49 CFR Part 1057), when Travenol equipment is operated under lease by TTWS, Inc.

WE FIND:

TTWS, Inc., is a wholly-owned subsidiary of Travenol Laboratories, Inc. Travenol is in turn a wholly-owned susidiary of Baxter Travenol Laboratories, also a non-carrier. In the furtherance of its primary business, Travenol operates a private fleet of motor vehicles. It has frequent occasion to trip-lease its vehicles to its subsidiary TTWS, Inc., for return movement to the point of domicile.

In conducting these lease operations it has found the vehicle identification requirements of 49 CFR 1057.22(a) and the equipment receipts requirements of 1057.22(c)(2) and (4) to be expensive and time consuming. Since common control, due to the parent subsidiary relationship, exists, these reguations are viewed as unnecessary and burdensome.

Granting of the requested waiver will enable the petitioners to realize the maximum benefit of trip leasing. Reduced empty mileage of the Travenol fleet will result not only in an energy saving, but also enable the carrier TTWS, Inc., to respond to service requests more promptly and efficiently.

Dispatch records and operational logs, maintained at a central location, readily identify changes in equipment control and transportation assignments. A common maintainenance and safety program is applicable to the total operation.

We find that a denial of the requested relief would be contrary to the Commission's obligations under the National Transportation Policy and past practices.

IT IS ORDERED:

1. The petition of TTWS, Inc., MC-180793 and Travenol Laboratories, Inc. for waiver of Sections 1057.22(a) and the equipment receipts portions of Section 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations, when the equipment of Travenol Laboratories, Inc., is operating under lease to TTWS, Inc., is granted.

2. All provision of Sections 1057.22, other than those specifically waived above, will be applicable to the leasing by TTWS, Inc., of the equipment of Travenol Laboratories, Inc. as long as they remain carriers under common control.

3. Contractual relationships between owner-operators and TTWS, Inc., will be governed by the complete leasing regulations of 49 CFR Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

WILL BE PUBLISHED IN THE FEDERAL REGISTER ON OCTOBER 10, 1986

49 CFR Part 1011

DELEGATION OF AUTHORITY TO THE REVOCATION BOARD

AGENCY: Interstate Commerce Commission.

ACTION: Final Rule; Notice of Enforcement Policy.

SUMMARY: The Commission intends to exercise its authority under 49 U.S.C. 10925(b)(1), (c)(1) and (c)(3) to revoke the certificate, permit or license of a motor carrier, broker or freight forwarder (after due notification) for failure to pay the proper application fee, as required by 49 CFR 1160.9(a). Allowing such carriers to reap the benefits of continued operation without having paid the required fees is not only unfair to those carriers and brokers who have paid the required fee, it is also in violation of our regulations under 49 CFR 1160.9(a) which requires the filing of such applications "with the proper application fee." The Commission has determined that uncontested proceedings involving filing fees can best be processed by the Revocation Board and, pursuant to 49 U.S.C. 10305, is delegating that responsibility to the Board. Appropriate revisions in the Code of Federal Regulations will be made to reflect the delegation.

EFFECTIVE DATE: This decision is effective on November 10, 1986.

FOR FURTHER INFORMATION CONTACT:

HEBER P. HARDY (202) 275-7148
or
JOHN W. FRISTOE (202) 275-7844

SUPPLEMENTARY INFORMATION:

Since 1981, about $40,000 has been lost to the U.S. Treasury because numerous motor carriers and brokers paid the application filing fee for their operating authority (or a portion thereof) with a check that was not honored by the bank, when presented for payment. Subsequent efforts at collection have not been successful.

Allowing such carriers to reap the benefits of continued operation without having paid the required fees is not only unfair to those carriers and brokers who have paid the required fee, it is also in violation of our regulations under 49 C.F.R. 1160.9(a) which requires the filing of such applications "with the proper application fee."

The Commission has the authority under 49 U.S.C. 10925 to suspend, amend, or revoke the operating authority of carriers (subject to the due process requirements specified there) for failure to comply with the Act, a regulation or order of the Commission, or a condition of its certificate or permit, or license. The Commission hereby announces that it intends to exercise that authority to revoke or suspend certificates when carriers willfully fail to comply with our orders to pay the fees.

We have determined that uncontested proceedings involving filing fees can be processed most efficiently by the Office of Compliance and Consumer Assistance, Revocation Board. If carriers or brokers do not respond to an order requiring payment of the fees, the Revocation Board will be authorized to suspend or revoke the certificate, permit or license. Under 49 U.S.C. 10305, we delegate that responsibility to the Board and revise the regulations at 49 CFR 1011.6(b)(4), as set forth in the Appendix, to reflect this action. Because the rule revisions only affect internal Commission procedures they are issued here in final form. Public comment is not required. 5 U.S.C. 553(b)(A).

This action does not significantly affect the quality of the human environment or the conservation of energy resources.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the purchase by Circle Van Express, Inc. (CVE) (a non-carrier) of Certificate No. MC-145481 (Sub-No. 39) and Permit No. MC-145481 (Sub-No. 40) from Hoosier Transportation System, Inc. (Hoosier) (No. MC-145481). Hoosier's Sub-No. 39 certificate authorizes the transportation of general commodities (except classes A and B explosives, household goods, and commodities in bulk) between points in the United States (except Alaska and Hawaii). Its Sub-No. 40 permit authorizes the transportation of general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States, under continuing contract(s) with commercial shippers or receivers of such commodities.

CVE is a wholly-owned subsidiary of Circle Express, Inc. (CE) (a non-carrier holding company), which, in turn, owns and controls (either directly or through another subsidiary) five existing motor carriers: R-W Service System, Inc. (No. MC-55896), Marck Express, a Division of Ivory, Inc. (No. MC-72235), Rainbow Express, Inc. (No. MC-175476), Manufacturing Distribution Corp. General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Ex Parte No. MC-165 (Sub-No. 2)

EXEMPTION OF WATER CONTRACT CARRIERS FROM TARIFF FILING REQUIREMENTS
[49 CFR Parts 1162 and 1312]

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Water contract carriers are currently required to comply with Commission tariff filing regulations at 49 CFR Parts 1162 and 1312. The Commission is proposing to exempt water contract carriers from all such filing requirements pursuant to 49 U.S.C. 10761(b). It tentatively finds that such an exemption would be consistent with the public interest and the transportation policy of 49 U.S.C. 10101.

DATES: Comments are due on November 14, 1986.

ADDRESS: Send an original and, if possible, 10 copies of comments referring to Ex Parte No. MC-165 (Sub-No. 2) to:

Case Control Branch

Additional information is contained in the Commission's decision. To obtain a copy of the full decision, write to Office of the Secretary, Room 2215, Interstate Commerce Commission Building, Washington, DC 20423, or call (202) 275-7428.

This action does not appear to significantly affect either the quality of the human environment or the conservation of energy resources.

Under 5 U.S.C. 601, et seq., we are required to analyze the potential impact of the proposed rule on small entities. Because of the relatively small number of water contract carriers, we tentatively conclude that the proposed rule will not have a significant economic impact on a substantial number of small entities. We do conclude, however, that any impact on these carriers will be beneficial as it will reduce carrier costs.

List of subjects in 49 CFR Part 1162

§1162.5 - [Amended]

3. Section 1162.5(b) would be amended by adding water contract carriers to the exception in parenthesis in sentence one of paragraph (1). As revised, the first sentence would read as follows:

(1) "Each application for ETA (except an application seeking authority as a motor contract carrier of property or a water contract carrier) shall be accompanied by a statement of the rates, fares, charges, and other tariff or schedule provisions to become effective if the application is granted."

PART 1312 - REGULATIONS FOR THE PUBLICATION, POSTING AND FILING OF TARIFFS, SCHEDULES AND RELATED DOCUMENTS.

4. The authority citation for Part 1312 is revised to read as follows:

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

EX PARTE NO. 290 (SUB-NO. 2)

RAILROAD COST RECOVERY PROCEDURES

AGENCY: Interstate Commerce Commission.

ACTION: Final Rule.

SUMMARY: The Commission has modified its rules governing railroad cost recovery procedures by requiring railroads to adjust their cost recovery tariffs to take into account declines in the rail cost adjustment factor (RCAF). The Commission will address declines in the RCAF that cannot be practicably addressed through rate reduction orders by postponing authorizations for future cost recovery rate increases. The Commission has also adopted procedures to mitigate errors in forecasting costs in a previous quarter. Finally, the Commission has ordered the railroads to cancel cost recovery tariff RCCR X-0-86. These new policies seek to interpret the enabling statute in light of current realities in a manner that is fair to all parties.

DATE: The new rules take effect on November 17, 1986.

SUPPLEMENTARY INFORMATION:

Proposed rules in this proceeding were published at 51 FR 16363, May 2, 1986. Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. Infosystems, Inc., Room 2229, Interstate Commerce Commission, Washington, D.C. 20423, or call 289-4357 (Washington, D.C., metropolitan area), or toll-free (800) 424-5403.

This decision will not significantly affect the quality of the human environment or conservation of energy resources. It will not have a significant adverse impact on a substantial number of small entities, because it does not prescribe maximum rate levels, but rather addresses only the methodologies by which rail carriers may set rates.

APPENDIX

Title 49 of the Code of Federal Regulations is amended as follows:

(1) The authority citation for Part 1135 is revised to read as follows:

Authority: 49 U.S.C. 10321 and 10707a; 5 U.S.C. 553

(2) Section 1135.1 is amended by revising paragraph (b), redesignating paragraph (f) as paragraph (g), and adding a new paragraph (f), to read as follows:

§1135.1 Quarterly adjustment of rates.

x x x x x

(b) The allowable increase will be based on a projection of the index to the midpoint of the quarter to which the index will apply. The percent age change must be calculated from a comparison of the forecast index for the midpoint of the quarter during which the rates will be in effect with the forecast index for the midpoint of the previous quarter. Each quarterly index will be adjusted for forecast error in the index issued six months earlier. The adjustments will be made by adding or subtracting, as appropriate, the difference between the index using actual data for the second prior quarter and the index using forecasted data for that quarter.

x x x x x

(f) All cost recovery tariffs filed with the Commission shall state that they are being filed in conformity with the rules in 49 CFR 1135.1 and 1312.17 (k), and shall be amended under the same timetable applicable to rate increases, to reflect declines in the cost index. EX PARTE No. MC-43 (Sub-No. 17)

AUTHORIZED CARRIER LEASE OF EQUIPMENT AND DRIVERS
TO PRIVATE CARRIERS AND SHIPPERS
(49 CFR PART 1057)

AGENCY: Interstate Commerce Commission.

ACTION: Removal of rules.

SUMMARY: The Commission repeals the rules in 49 CFR 1057.41 so as to allow authorized carriers to lease equipment and drivers to private carriers and shippers provided certain minimum criteria are set forth in the written lease. The proposed action was published at 50 FR 41533, October 11, 1985. The use of equipment and driver leasing (popularly termed "single-source leasing") increases the spectrum of price and service quality options available to shippers and receivers. Carriers can earn additional revenues by the productive use of their equipment and personnel by shippers and private carriers and also may be able to reduce insurance costs. Shippers and private carriers benefit by having an additional source for equipment and drivers. These results promote competition and efficient resource use in the public interest.

EFFECTIVE DATE: This decision is effective on November 17, 1986.

SUPPLEMENTARY INFORMATION:

Additional information is contained in the full Commission decision which is available for public inspection and copying at the Office of the Secretary, Interstate Commerce Commission, or may be purchased from T.S. ENERGY AND ENVIRONMENTAL STATEMENT

This action does not appear to significantly affect the quality of the human environment or conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

The action taken here will have a positive, but not significant beneficial economic impact upon small entity lessees and lessors of equipment. By allowing another option for more efficient equipment utilization during periods when equipment might not otherwise be used, authorized carrier lessors will realize a benefit in their ability to lease out idle equipment for short periods of time and collect revenues from such transactions. Shipper and private carrier lessees will benefit by having additional sources from which to obtain equipment and drivers for use in their proprietary transportation operations. These advantages should benefit the public in the form of improved service and lower rates. The modifications will not impose regulatory burdens because they are permissive and do not require regulated carriers to enter into such arrangements.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE No. MC-43 (Sub-No. 16)

LEASE AND INTERCHANGE OF VEHICLES
(IDENTIFICATION DEVICES)
49 CFR Part 1057

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: Final rules are adopted governing the removal and/or return of carrier identification devices on termination of a lease agreement (see appendix). The present rules requiring carriers to: (1) retrieve their identification devices; and (2) obtain a receipt when equipment owners retake possession of their equipment are removed. The final rules require that these matters be negotiated between the parties and addressed in the lease agreement. Additionally, the final rules permit carriers to withhold payment to equipment owners pending removal and return of their identification devices.

EFFECTIVE DATE: November 21, 1986.

FOR FURTHER INFORMATION CONTACT:

Paul W. Schach or Mark Shaffer
(202) 275-7885 (202) 275-7805

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. Infosystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call 289-4357 (DC Metropolitan area) or toll-free (800) 424-5403.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

We reaffirm our prior certification. The rules we are adopting here will not have a significant economic impact on a substantial number of small entities. While the rules we adopt will affect a substantial number of small entities, i.e., independent owner-operators, their economic impact will not be substantial. Equipment owners required by the lease contract to remove, package, and return identification devices to the carriers may incur some additional but minimal expense, but, as stated in our earlier decision, such additional costs can ultimately be the subject of negotiations between the equipment owner and the carrier entering into a lease contract. This same analysis applies to those owner-operators required by the lease to provide the carrier with a receipt when they retake possession of the equipment. Finally, the other rule revisions that we adopt here do not have any direct economic impact.

List of subjects in 49 CFR Part 1057

Motor carriers

"In addition, the lease may provide that, upon termination of the lease agreement, as a condition precedent to payment, the lessor shall remove all identification devices of the authorized carrier and, except in the case of identification painted directly on equipment, return them to the carrier. If the identification device has been lost or stolen, a letter certifying its removal will satisfy this requirement. Until this requirement is complied with, the carrier may withhold final payment."

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition of control of Sward Trucking, Inc. (Sward Trucking) (No. MC-146045) by Phoenix Ventures (Phoenix Ventures, a general partnership) (a non-carrier) and by the three partners thereof (each an individual and a non-carrier): Peter Hood, Arthur O'Malley, and Edward Gardner (the three partners).

The proposed transaction will make Sward Trucking a wholly-owned subsidiary of Sward Acquisition Corporation (Acquisition Corporation) (a non-carrier), which is itself owned and controlled by Phoenix Ventures. This transaction falls within the scope of 49 U.S.C. 11343(a)(5) ["acquisition of control of a carrier by a person that is not a carrier but that controls any number of carriers"], because Phoenix Ventures and the three partners own and control 74 percent of the issued and outstanding stock of Logex, Inc. (a non-carrier) (LAC, by its former name: Logex Acquisition Corporation) which in turn owns all of the issued and outstanding stock of Logistics Express, Inc., d/b/a Logex (Logex) (No. MC-138026).

Sward Trucking transports both truckload and less-than-truckload shipments of general commodities between points in 11 western States. Logex is primarily a transporter of liquid commodities in bulk, principally liquid and gaseous cryogenics in special trailers, throughout the United States.

Sward Trucking also operates pursuant to intrastate authority issued by the California Public Utilities Commission, which is also subject to the instant exemption petition. See 49 U.S.C. 11341(a).

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition of control of Armored Car, Inc. (Armored) (application pending in No. MC-194661) by Federal Armored Express, Inc. (FAX) (No. MC-147461), which is itself wholly owned by Mr. James L. Dunbar (an individual and a non-carrier).

FAX holds common and contract carrier authority pursuant to which it provides an extensive specialized service in connection with the transportation of currency, coin, securities and other valuables, documents and related commodities between points in the continental United States. Armored -- which is to be re-named "Federal Armored Express, Inc. of Illinois" -- has pending an application seeking nationwide general commodities contract carrier authority. It is anticipated that the contract carrier permit will be issued in the immediate future.

Armored presently operates in intrastate commerce pursuant to authority issued by the Illinois Commerce Commission, which is also subject to the instant exemption petition. See 49 U.S.C. 11341(a).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

HML II seeks to consolidate for operation the authority now held by HML I and HML, Inc. HML II will provide general commodity motor carrier service throughout the United States, operating terminals at New Orleans and Baton Rouge, LA. HML II has requested that the authority it is purchasing from HML I and HML, Inc., be issued to it under Docket No. MC-107878 (HML I's old docket number), and that Docket No. MC-154678 (HML, Inc.'s old docket number) be cancelled.

1/ The Samuel B. Haynes of HML I is identified in the petition as the father of Samuel B. Haynes, Jr., but he is not (in the petition) designated as "Sr."

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed exemption.

SUMMARY: The Alfred I. duPont Testamentary Trust (the Trust), St. Joe Paper Company (SJP), and St. Joe Industries, Inc. (SJI), all non-carriers, have filed a petition under 49 U.S.C. 11343(e) seeking an exemption from the requirement of prior regulatory approval for their continuance in control of St. Joe Container Company (SJC), which seeks initial operating authority in Docket No. MC-196121. The Trust, SJP, and SJI presently control two rail carriers: Apalachicola Northern Railway Company (AN) and Florida East Coast Railway Company (FEC) (the latter indirectly through non-carrier Florida East Coast Industries, Inc.)(Industries). They also control two motor common carriers indirectly through Industries and FEC: Florida Express Carrier, Inc. (FXC) (MC-153915) and Florida East Coast Highway Dispatch Company (FECHD) (MC-120975). SJC is a wholly-owned subsidiary of non-carrier St. Joe Forest Products Company that is a wholly-owned subsidiary of SJI that is wholly-owned by SJP. SJP, in turn, is controlled by the Trust. Existing common control of AN, FEC, FXC, and FECHD has been approved by the Commission in Finance Docket No. 13170, No. MC-F-14568, and No. MC-F-14578. AN's operations extend generally between Port St. Joe and Chattahoochee, FL, where they connect with the Seaboard System Railroads, a unit of CSX Corportation. FEC's operations extend principally between Jacksonville and Homestead, FL, along Florida's Atlantic Coast via West Palm Beach and Miami. FXC holds nationwide irregular-route authority to transport general commodities (with exceptions), but concentrates on trailer-on-flatcar and container-on-flatcar traffic in connection with FEC in the southeastern states. FECHD conducts primarily regular-route, short-haul, general commodity operations within Florida that are auxiliary and supplemental to FEC's service. SJC seeks 48-State motor contract carrier authority to serve commercial shippers and receivers of general commodities (with exceptions). Upon approval of SJC's pending application, an additional motor carrier will be added to the two rail carriers and two motor carriers presently controlled by the Trust, SJP, and SJI. However, continuance in control of a carrier by a person that is not a carrier but that controls any number of carriers may be carried out only under Commission regulation or under an exemption from regulation. See 49 U.S.C. 11343(a)(5) and 11343(e).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

MG ACQUIRING CORPORATION AND MG TRANSIT, INC. -- CONTROL -- AMTC BROKERS, INC.

AGENCY: Interstate Commerce Commission

ACTION: Notice of proposed change in the control of a corporation which holds a broker license, under 49 CFR 1181.32(b).

SUMMARY: By application filed October 29, 1986, MG Transit, Inc. (MG Transit), MG Acquiring Corporation (MG Acquiring), and Mayflower Transit, Inc., d/b/a Aero Mayflower Transit Company, Inc. (Mayflower Transit) seek approval for the acquisition of control of AMTC Brokers, Inc. (AMTC Brokers)(No. MC-169831) by (first) MG Acquiring and then by (second) MG Transit.

DATE: Comments are due on December 8, 1986.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, DC 20423

and

(2) Applicants' representative:
Robert J. Corber, Esq.
STEPTOE & JOHNSON

Washington, DC 20036

Comments should refer to No. MC-F-17925.

FOR FURTHER INFORMATION CONTACT:

Warren C. Wood (202) 275-7977

SUPPLEMENTAL INFORMATION:

AMTC Brokers, which is currently a subsidiary of Mayflower Transit, holds License No. MC-169831, issued March 6, 1984, authorizing it to engage in operations, in interstate or foreign commerce, as a broker, in arranging for the transportation, by motor vehicle, of general commodities, between points in the United States.

Mayflower Transit (of which AMTC Brokers is a subsidiary) is itself a subsidiary of Mayflower Group, Inc., (Mayflower Group). Applicants are planning a corporate reorganization and restructuring of Mayflower Group, in what is essentially a two-step process: first, the stock of Mayflower Group will be acquired by, and Mayflower Group will be merged into, MG Acquiring; and, second, MG Acquiring will be merged into MG Transit. As part of this corporate restructuring, control of AMTC Brokers will pass from Mayflower Transit to MG Acquiring to MG Transit.

MG Acquiring and MG Transit are subsidiaries of MG Holdings, Inc. Of all the companies involved with, or related to, the subject corporate reorganization, only Mayflower Transit (No. MC-2934) is a carrier. The motor carrier aspects of this reorganization are subject to a sec. 11343(e) exemption proceeding, docketed as No. MC-F-17913 (ICC Register of October 30, 1986).

Our regulation at 49 CFR 1181.32(b) provides: "If there is a change in the control of a corporation... which holds a broker license, an applicantion must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." The record suggests that the proposed change in control of AMTC Brokers will not be contrary to the public interest, since the corporate organizations controlling AMTC Brokers after the reorganization will not differ, in substance, from the parents of AMTC Brokers at the present time. The only change will be in the form of the corporate structure and ownership of the parent corporations controlling AMTC Brokers.

Public comment is invited on the question, whether the change in control of AMTC Brokers is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32(b).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

WILL BE PUBLISHED IN THE FEDERAL REGISTER ON NOVEMBER 18, 1986

EX PARTE NO. MC-41

IDENTIFICATION OF MOTOR VEHICLES
(49 CFR PART 1058)

AGENCY: Interstate Commerce Commission

ACTION: Final Rules

SUMMARY: Subsequent to notice (51 FR 28249, August 6, 1986) and comment the Commission is exempting from vehicle identification regulations at 49 CFR Part 1058, vehicles with a capacity of six or fewer passengers when engaged in luxury-type limousine passenger service. Carriers offering and passengers using this type of specialized service have found that the identification of vehicles, formerly required by part 1058 detracted materially from the exclusive luxury nature of the service. The Commission also is eliminating the unnecessary regulation prohibiting the use of its vehicle identification plates issued prior to 1945. The amendments redesignating §1058.5 as §1058.5(a), the addition of a new paragraph (b), and the elimination of §1058.6 are contained in Appendix A of the decision.

EFFECTIVE DATE: The revised rules are effective on December 18, 1986.

FURTHER INFORMATION CONTACT:

Roy M. Wilkins

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write T.S. Infosystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423 or call 289-4357 (DC Metropolitan area) or toll-free (800) 424-5403.

This action will not significantly affect, either the quality of the human environment or energy conservation. This rule will not have a significant economic impact on a substantial number of small entities.

The subject involved in 49 CFR Part 1058 is: Motor Carriers.

Decided: November 7, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Ex Parte No. 274 (Sub-No. 8)1/

EXEMPTION OF OUT OF SERVICE RAIL LINES

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: On reopening, the Commission is reaffirming its decisions to exempt from regulation under 49 U.S.C. 10903-05 rail line abandonments and trackage rights and service discontinuances where no traffic has originated or terminated on the line for at least 2 years, subject to certain conditions, including the standard labor protective conditions set forth in Oregon Short Line R. Co. - Abandonment - Goshen, 360 I.C.C. 91 (1979) (OSL). The Commission is also reaffirming its adoption of the rules at 49 CFR 1152.50 with an amendment to clarify that parties seeking greater labor protection than the standard conditions set forth in OSL must file a petition for partial revocation of the exemption. These actions are being taken following the findings of the U.S. Court of Appeals for the D.C. Circuit that the Commission's prior decision was inadequate in several areas.

DATES: The decision and rules are effective on December 22, 1986.

SUPPLEMENTARY INFORMATION:

The final rules being reaffirmed in this decision were published at 48 F.R. 27547, June 16, 1983 and 49 F.R. 17002, April 23, 1984, as amended at 49 F.R. 396, January 4, 1984, 50 F.R. 8335, March 1, 1985 and 50 F.R. 24649, June 12, 1985.

Additional information is contained in the Commission's decision. To purchase a copy of the full decision write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call 289-4357 (DC metropolitan area) or toll free (800) 424-5403.

The Commission certified, in the prior proceedings, that these actions will not have a significant economic impact on a substantial number of small entities. We reaffirm that finding.

This action will not significantly affect either the quality of the human environment or energy conservation.

PRACTICES OF MOTOR COMMON CARRIERS OF PASSENGERS --
CHECKED BAGGAGE PROHIBITIONS AND LIABILITY EXEMPTIONS

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Commission has adopted a rule (proposed at 49 FR 26439, June 23, 1986) allowing motor passenger carriers to refuse to accept money as checked baggage and to disclaim liability for loss or damage to any money unknowingly accepted in checked baggage. The Commission has found the rule, requested by the National Bus Traffic Association, Inc., to be a commercially reasonable approach to an obvious problem. NBTA had asserted that the present liability for lost money harms motor passenger carriers both in terms of claims that they have been required to pay and because of enhanced security measures they have been required to invoke.

EFFECTIVE DATE: December 22, 1986.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

The Commission certifies that the adopted rules will not have a significant economic impact on a substantial number of small entities. The amendment will have a small beneficial impact on small passenger carriers by relieving them of some of the burden of questionable liability claims.

List of subjects in 49 CFR Part 1063: Aged, Baggage, Blind, Buses, Handicapped, and Motor carriers.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:
